With simple internet access

Campus

The **Internet campus** will ensure your learners' important and rapid acquisition of knowledge.

A simple functioning

No need for a system or database manager. We install and manage our servers' whole technological infrastructure (in ASP mode) to enable you to focus on what counts for you: your training or that of your employees, partners or clients.

Operational within 24h

Your access code is provided after a simple request. We offer an immediate, efficient and economic solution corresponding to your needs.

One connection and there you go ...

Access the Edu-Performance Campus

The **Internet Campus** offers a bi-level access:

• Learner's access

The learner accesses training to which he is registered with a simple internet connection. Here are the functionalities offered by the Internet Campus:

- Certificates of achievement editing
- FAQ available in each language of usage
- Many progress reports (detailed results of one or several cumulated contents)
- A diagnostic right from the start of the training enabling self-evaluation and to determine the skill gap

• Trainer access *

For businesses or larger institutions, Edu-Performance offers trainers' access to those responsible of training and has many learners to manage. This access also offers parallel learner access, opening the door to the benefits of e-learning training within your customized catalogue.

** To benefit from trainer access, the person in charge of training must purchase at least 500 training credits.*

Training credits

The great strength of the online training Internet Campus lies in its management mode for trainers. The person in charge of training purchases a quantity of Edu-Performance credits to access the complete catalogue with over 700 online trainings. It also registers the learners in the desired content for periods of three, six or twelve months with a free use of credits. He thus builds his customized content catalogue.

Internet Campus Access	Quantity of necessary credits*					
	Office automation			Computer science	Languages	Management
	Theoric eval.	Practical eval.	Contents			
3 months	2 credits	4 credits	10 credits	15 credits	36 credits	10 credits
6 months	3 credits	6 credits	15 credits	23 credits	54 credits	15 credits
12 months	4 credits	8 credits	20 credits	30 credits	72 credits	20 credits

* All the posted rates are subject to changes without previous notice.

The credits are valid for two years after the date of purchase.

Advantages

- Easy access via a simple internet browser
- No technical skills required
- We host the system; you don't need a server or a database
- Customized environment and compatible to the e-training AICC and SCORM industry standards for the diffusion of "owner" contents.
- Catalogue with over 700 e-training courses
- Training cost reduction: a simple internet access enables you to cut the costs of traditional training (room, teacher, moving...)
- Best data memorization with learners due to a user-friendly and interactive environment

Technical specifications

All you need is a standard internet browser:

Internet Explorer 4.0 (or better)
 Netscape Navigator 4.7 (or better except for 6.x)

PC compatible
